

35 Years of Reliable Software and Trusted Service

Industry Leading Billing Software Celebrates 35th Anniversary.

Date: July 14, 2014

From: Software Technology, Inc. -- Lincoln, NE

Software Technology, Inc., the maker of Tabs3 Software is celebrating 35 years of providing software and service to law firms.

“For the last 35 years, our goal has been to provide law firms with the highest level of products and service,” said Dan Berlin, President of Software Technology, Inc. “As a long standing leader in the legal market, we will continue to respond to our clients and industry professionals in order to set the standard for reliable software and trusted service.” Berlin continued, “Years before IBM sold its first personal computer, we were designing software for law firms. Today, an average of over 1 billion dollars a month gets billed through Tabs3.”

Since its first day of business in 1979, Software Technology, Inc. has required no financial backing or assistance and remains privately owned and operated. The owners continue to manage the daily operations of the business, supported by one of the most experienced and tenured management teams in the industry. Tabs3 Software is frequently enhanced so that law firms benefit from the most up-to-date features and technology.

Earlier this year, Software Technology, Inc. released version 17 of Tabs3 Software, which includes a sophisticated document management feature in PracticeMaster, its popular practice management software. Enhancements were also made to Tabs3 Connect, a Platinum level feature that allows time entry, calendaring, and Tabs3 and PracticeMaster data access from any smartphone, tablet, or offsite computer.

ABOUT SOFTWARE TECHNOLOGY, INC.

Software Technology, Inc., the maker of Tabs3 Billing Software and PracticeMaster Practice Management Software, has been at the forefront of developing software for law firms for over thirty years. STI is a Gold Certified Partner in the Microsoft Partner Program. Tabs3 is one of the most widely used legal specific time and billing products in the United States and has been an industry leader since its introduction in 1979. Tabs3 is designed to seamlessly integrate with PracticeMaster, a leader in practice management software. Among its many features, PracticeMaster provides an easy way for firms to create a firm-wide calendar, search for conflicts of interest, and organize case and contact information. For more information: call (402) 419-2200 or e-mail sales@tabs3.com.
