PracticeMaster Is Now Available in Tabs3 Cloud

Cloud-based software provides a full billing, accounting, and practice management suite

LINCOLN, Neb. – September 23, 2024 – Leading legal software [Tabs3](#) today debuted its latest release of [Tabs3 Cloud](#), which adds the award-winning [PracticeMaster](#) solution to the billing and financial tools already accessible in the SaaS platform. Tabs3 Cloud combines the flexibility of Tabs3 Billing, Financials, and PracticeMaster to create a complete solution for law firm management.

With Tabs3 Cloud, law firms can connect securely from any internet-enabled device and have full access to the same easy-to-use interface and data privacy that Tabs3 clients have relied on with the on-premises version of Tabs3 Software. Users can create invoices, collect payments, generate reports, check conflicts of interest, and manage documents, calendars, and matter information, all in a single cloud-based platform.

“The addition of our premier practice management system with our billing and accounting creates a feature-rich solution to boost firm productivity,” said Dan Berlin, President and CEO of Tabs3 Software. “Tabs3 Cloud enables attorneys and law firm staff to work from the office, at home, or on the go, and still maintain the highest levels of data security.”

Tabs3 is esteemed in the legal industry for its history of providing reliable, flexible, and feature-rich tools that have transformed the way tens of thousands of legal professionals work. The versatile functionality of Tabs3 Billing, Financials, and now PracticeMaster are available in Tabs3 Cloud, backed by outstanding U.S.-based support.

Berlin added, “Not only does our cloud-based software offer efficiency, mobility, and data privacy, it’s also a great choice for law firms that don’t have dedicated IT personnel or don’t want to manage their own server.”
